

People Matters Values

How we work is really important at People Matters so we have developed some value statements together so everyone can see. This is whether you see yourself as staff, volunteer, learner, member or someone who is thinking about using our services.

At People Matters we:

Put you first – we are flexible and inclusive, everything about our people and each other matters to us
--

Work together – we collaborate to build our teams, communities, friendships and how we engage with you

Have integrity - you can trust us to be honest, treat you equally, respectfully and with empathy

Are determined to see potential thrive – our commitment means we stay with you and take pride in your successes
--

Are enterprising – we solve problems, adapt to your needs and take care with your money
--
